

Resource 6: Residents/Tenants Map - who is in your bubble?

This guidance prepared by Community Housing Aotearoa (CHA) applies to activity permitted and/or advised under the Government's Alert Level 3 response to the COVID-19 pandemic.

This tool will help you list your household or work bubbles and connections. Remember, the aim at level 3 is to keep bubbles as small and as safe as possible. For people living in shared housing with shared communal spaces, these can be thought of as bubbles within bubbles. There are still options to keep everyone safe with some practical steps that can be put in place by everyone. Use the back of this form to draw your bubbles and connections. This information can be used to contact trace, if required.

Who is in your household bubble? List each person. *May include partner, friends, extended family, and regular carers of children or over 70s, and their partners who may visit your house.*

Who is in your wider shared accommodation bubble? Think of big bubbles with smaller bubbles inside. Who is in your exclusive bubble and who is in an extended bubble? *Hand hygiene, physical distancing, and regular cleaning will keep bubbles slightly separated.*

Who is in your work crew bubble? List each person. *This will be anyone in your office or work base area (even though you are following the 1 metre workplace physical distancing, hand hygiene etc).*

Do you provide regular face-to-face care, support, or friendship to anyone else? If yes, are they part of your household or work crew bubble? List each person.

Has anyone else entered your home or place of work to do maintenance or repairs? They are likely casual contacts. *Keep a note.*

Do you do the shopping? If so, which shops/petrol station do you go to, and when were you there? *Keep a note.*

Have you received or provided contactless deliveries? If so, which company and what was delivered? *Keep a note.*

Draw your bubble for Alert Level 3: Bubble can be extended slightly.

Draw a map of anyone in your household bubble, workplace bubble and regular visitors to your household or people you visit in their household.

Household Bubble

List all the people who live in your house; visit your house regularly; or you visit in their house regularly; these people are all part of your bubble.

People who you or anyone else in your bubble visits regularly are part of your bubble

People who visit you or who anyone else in your bubble visits regularly are part of your bubble

Work bubble (*joined by you to your household bubble*)

This map can be used if contact tracing is required
