Qualifications and standards
Partnering to define and launch a tertiary qualification pathway for housing professionals.

Pacific Housing
Supporting a thriving Pacific CHP sector.

Supporting the development of a Pacific housing strategy
Resourcing and support for Pacific CHP training and development, networking and submissions to policy and funding processes.

Data and evidence
Coordinating and improving data and evidence sharing between the sector and government.

CHP data framework
Developing a data sharing framework so that data is easier to use and more useful for the sector, the government and other funders.

STRENGTHEN

We strengthen the housing system through **expert advice and advocacy** so that communities are stronger for generations.

SO WE CAN GROW

We grow a quality community housing sector through **knowledge sharing, best practice and events** so that our members are well-supported and sustainable.

This workplan aligns with Community Housing Aotearoa's 10 year strategy (2018). The milestones for that plan are currently under review and will be formally updated for the 2021 FY Annual Report. This workplan does not include the full range of all contracted peak body service deliverables ("business as usual").
